

WEBINAR  
27/04

## HEAD OF UNIT AT THE EUROPEAN INVESTMENT BANK A possible revolution for **Waste Management**

**The responses raised** by players in the sector regarding the possibility of simplifying and making more efficient the European market for waste and ancillary services, in support of the **circular economy**.

**Computer Solutions S.p.A.e Protiviti**  
present the :

### **WSX - Waste Service Exchange**

initiative developed within a project co-funded by **EIT Climate-KIC**, inviting it to the meeting "**Digital platforms and regulated markets, a possible revolution for Waste Management**".

The aim of the meeting is to present the results of the survey addressed to the main national and European operators in the waste sector within the **WSX - Waste Service Exchange** an initiative aimed at **overcoming the current market inefficiencies** in waste disposal/recovery management practices and related services

The analysis represents an opportunity to look to the future and discuss the **evolution** or "revolution" of the sector in order to ensure greater environmental **social and economic sustainability**, meeting the needs of producers and the entire supply chain by managing the future market of services for the recovery, disposal of waste and raw materials in **perfect regulatory compliance** and efficiency, especially with a view to encouraging the **circular economy**.

In the period of **COVID-19**, the event will be held through videoconferencing between 15:00 and 16:15.
